exclusively for children

funky little darlings™

creating beautiful modern design especially for children!

about us

Funky Little Darlings was established by Mandy Colliss and David Quinton in 2006 with the aim of designing imaginative and creative wallcoverings of the highest quality... exclusively for children.

the collection

Our first collection of high end wallpapers are now available with engaging designs suitable for babies, toddlers and young children. Featuring our use of contemporary graphics, bold vibrant colours, inventive imagery and dramatic scale, they are printed with incredible detail onto finest quality, heavy weight paper.

Walls were not this cool when we were children!

sustainable and environmental

Our wallpapers are designed and made with pride in the UK using sustainably sourced materials and environmentally friendly, non-toxic water based inks. We work with the best suppliers and finishers in the industry, all as passionate about creating quality products as we are.

press

We have been very fortunate to have received some wonderful TV, press and media coverage. We were featured on Channel 4's 'Grand Designs' last year and a recent project has been just filmed for the BBC. We have been featured in magazines worldwide, including 'The Times Magazines', 'Elle Decoration', 'Grand Designs' and 'Living etc.' amongst others. "Funky Little Darlings are producing the brightest, coolest designs for children we've ever seen" - Junior, Pregnancy and Baby magazine.

We are really excited about our first collection of wallpapers and we hope you are too! Please contact us to find out more.
